Education

2024-2027
Bachelor in Computer Science, Galgotias University, Noida

With a degree in BCA from the Galgotias University, I cultivated the skills and knowledge that form the bedrock of my expertise in web development and programming.

2005-2007
Bachelors in Computer Application, Galgotias University, Noida

I further honed my skills by pursuing a Bachelor's degree in Computer Applications, delving deeper into advanced concepts and emerging technologies to elevate my proficiency in web development at Galgotias University.

2024-2027
Professional Studies in Web Developement, Galgotias, Noida

My journey continued with Professional Studies in Web Development, where I delved into specialized courses, refining my expertise and staying abreast of the latest industry trends to excel in the dynamic world of web development.

Work Experience

2026-2027
Web Designer at Web Inspired LLC

As a Web Designer at Web Inspired LLC, I translated my passion for aesthetics and functionality into captivating online experiences, leveraging my skills to craft visually stunning and user-centric websites for enhanced digital engagement.

2025-2026
Freelance Web Developer

Embracing the freedom of a Freelance Web Developer, I thrive on the diversity of projects, employing my technical prowess to bring clients' visions to life through customized and efficient web solutions.

2024-2025
Part Time Web Developer at Web Stories LLC

Balancing my commitment as a Part-Time Web Developer at Web Stories LLC, I contribute to the team's success by applying my web development skills, ensuring seamless digital experiences and collaborating on projects that enhance the online presence of the company.

Projects

Laravel - Vue.js
Project Management SaaS

In my role with a Project Management SaaS, I specialize in harnessing the power of Laravel and Vue.js to create robust and efficient solutions, facilitating seamless project coordination and enhancing the user experience within the dynamic realm of software as a service.

Python - React
Job Listing SaaS

Within the realm of Job Listing SaaS, I leverage my expertise in Python and React to develop innovative solutions, ensuring a streamlined and user-friendly platform that enhances the recruitment process and transforms the way job opportunities are accessed and managed.
